

Nonconforming Signs Schedule for Compliance

Please be reminded that all nonconforming wall signs and all nonconforming freestanding signs must be brought into compliance with the *Leesburg Code of Ordinances, Chapter 25 Zoning, Article VI. Sign Regulations* by June 1, 2009, and June 1, 2011, respectively. Please refer to Sec. 25-423 in the *Code of Ordinances* for specific guidelines on nonconformities. If you are the owner of a nonconforming sign(s), please plan to make modifications or replacements in order to comply with the current sign regulations, adopted July 2004. A main feature of the current sign regulations is that pole signs are no longer allowed. All freestanding signs must take the form of a ground or monument sign. Please be sure to start the process early since sign companies will be very busy during this time period. The link to the *Code of Ordinances* can be accessed via the City's website: www.leesburgflorida.gov under "Featured Services". For more information, please call the Planning and Zoning Division at (352)728-9760.
